

TLG ENGINEERING LIMITED

COMPANY PROFILE

WHO WE ARE

TLG Engineering Limited was established in 2019 Under the Tanzania companies act. Of 2002.

TLG Engineering Limited consists of 22 permanent employees including Directors, a Specialized Installer Electrician, Managers and a junior Accountant officer. Technical team include qualified electrical Engineers, qualified electricians, electrical assistants and general labourers.

TLG Engineering Limited is a member of the Contractors registration Board (CRB) Class 4 as electrical, mechanical, civil & building contractors together with members being registered with regulatory board (EWURA) **Class A, B & C and are committed to the latest Occupational Health & Safety Act.**

TLG Engineering Ltd has built a reputation for outstanding service and the highest levels of expertise when it comes to all of your electrical requirements. Our integrity has been never put in question and we always pride of it.

Mission Statement

To provide quality workmanship and customer service and maintain the highest level of professionalism, honesty and fairness in our relationships with our customers, employees and vendors

To grow by continually providing useful and significant products, services, and solutions to markets we already serve and to expand into new areas that build on our competencies and customer interests.

Vision Statement

To be the preferred Engineering contractor of choice across Tanzania and beyond country borders

A company that our customers want to work with and our employees are proud to work for.

Core Values

Safety

- At **TLG** Engineering Limited, safety is our primary focus. Audits are performed on a regular basis and every employee completes a safety training program. Our track record is something we take seriously every day.

Quality

- Every project **TLG** undertakes is completed by our team of highly skilled engineers & electricians with the best equipment and knowledge available. We strive to exceed our customers' expectations and appreciate their repeat business and referrals.

Customer Service

- Our customers are critical to us. From implementation to conclusion, we will work alongside our customers to ensure that their vision is being delivered by our team.

Teamwork

- Our experienced team consists of over 5 professionally licensed and registered engineers & electricians with more than 8 skilled managers and support staff. We are qualified and equipped to handle the challenges and complexities of any size job.

Integrity

- Customers, contractors, vendors, and suppliers will be able to count on **TLG** management and personnel to be reliable and trustworthy at every exchange. And adhere to the strictest moral and ethical codes of business conduct.

Industrial engineering systems Trainings

ELECTRICAL MAINTENANCE

Maintenance involves fixing any sort of electrical device should it become out of order or broken (known as repair, unscheduled, or casualty maintenance).

Electrical maintenance means the care and checklist of electrical equipment/instruments to avoid any breakdown or fault.

TLG Engineering Ltd provides premier electrical contracting and maintenance for public sectors and private customers in commercial, domestic and industrial markets throughout Tanzania. We offer short and long term maintenance contracts.

TLG Engineering limited team Onsite for industrial testing and maintenance of Low Voltage circuit breakers.

TLG ENGINEERING LIMITED team are always increasing items of technological growth through different training in our workshops or in different venues as matter raised.

TLG Engineering limited team in one of training at Africab Group Tanzania which is the one leading manufacturer of wide range of electrical products like wires and cables, transformers, switch gears, PVC conduit pipes and trunking

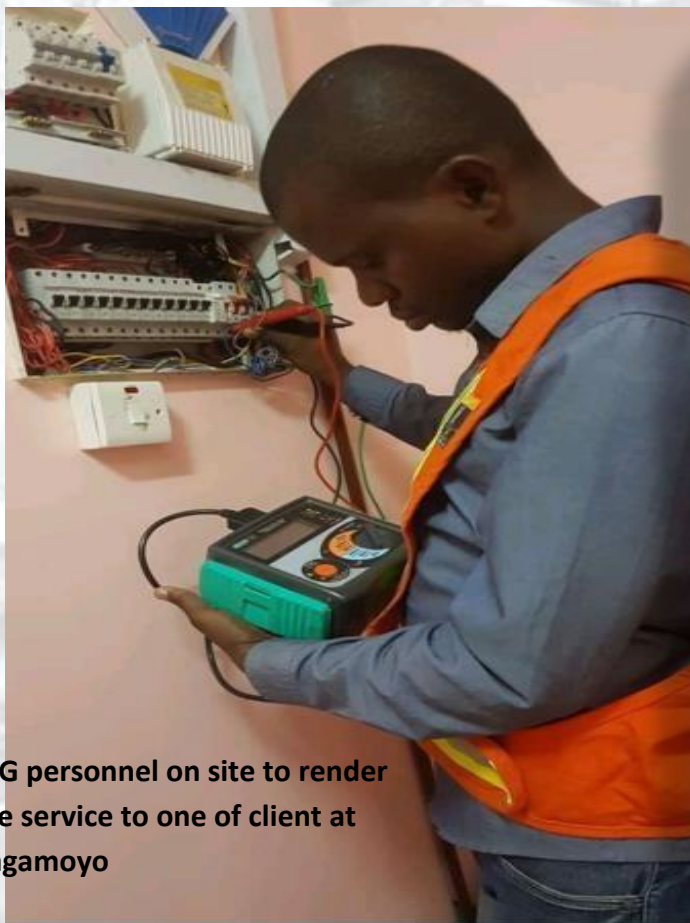

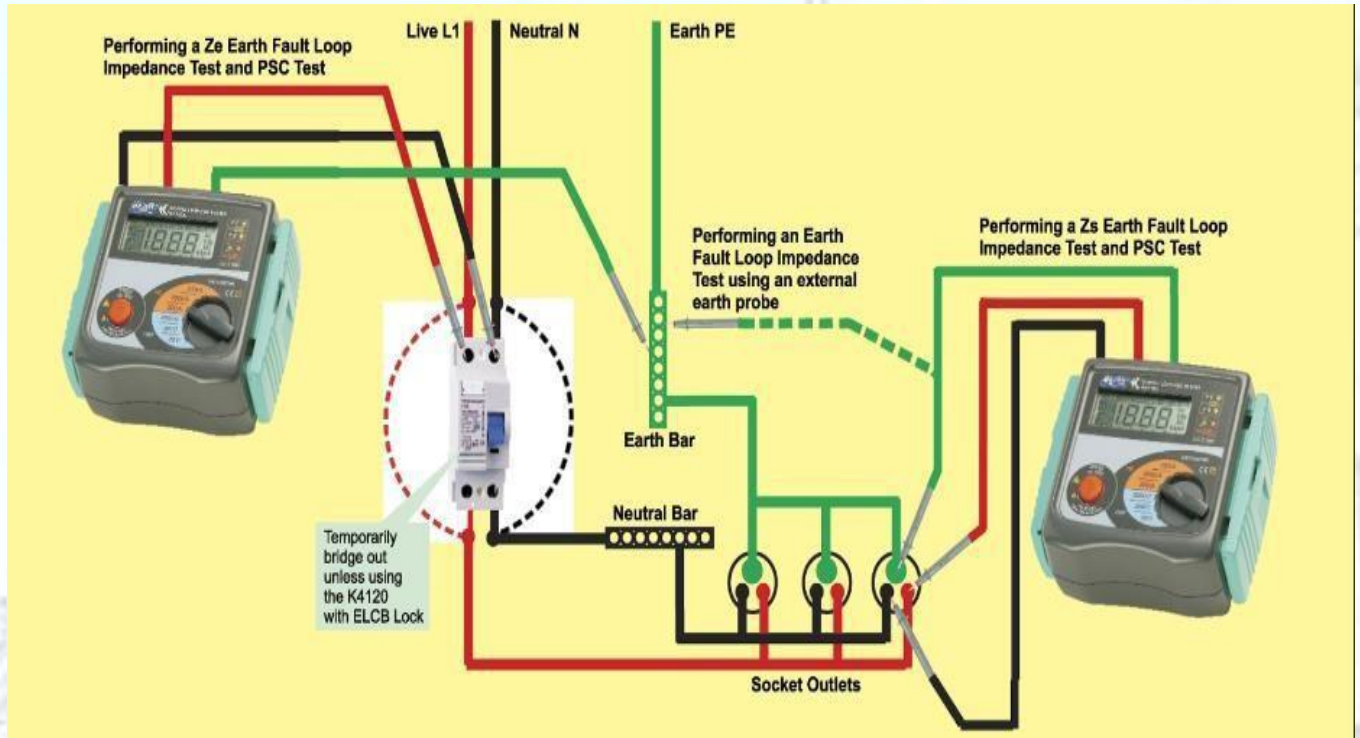

COMMERCIAL BUILDING ELECTRICAL INSTALLATION

TLG Engineering Limited has adopted international standards as per IEC 60364.

IEC 60364-8-1:2019(E) provides additional requirements, measures and recommendations for the design, erection and verification of all types of low-voltage electrical installation including local production and storage of energy for optimizing the overall efficient use of electricity.

EARTH FAULT LOOP IMPEDANCE TESTING AS AMONG OF OUR SERVICES

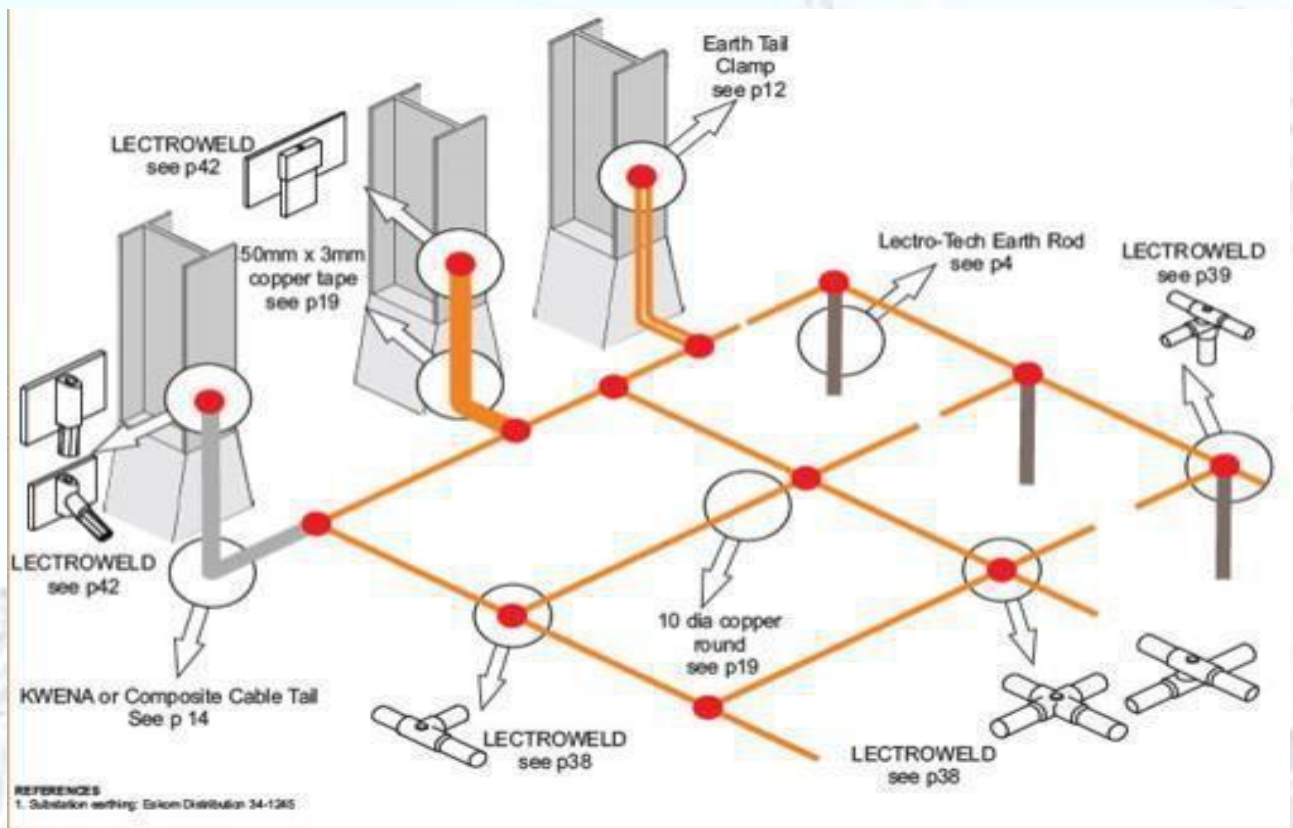

TLG personnel on site to render the service to one of client at Bagamoyo

In order to ensure the operation of the protective devices within the installation (such as MCB's & RCD's), the Earth Fault Loop Impedance value must be measured at the furthest point of the circuit and compared with the requirements found in **BS 7671**.

If the measured value is higher than the allowed in **BS 7671**, than the circuit is **not safe**

This test ensures house protection integrity & reliability

EARTH MATS INSTALLATION AS ONE OF OUR SERVICES

Earthing mats normally consist of a rectangular (or square) grid of copper wires that are buried in underground trenches mainly for provision of uniform potential gradient over a physical area.

TLG Engineering Limited
Design Works for earthing systems are in accordance to **IEEE-80/ IS 3043 / BS 7430**

TLG Engineering limited Team onsite for earthing system integrity verification and re-installation

POOR EARTHING SYSTEM HAS BEEN NOTED AS ONE OF CRITICAL PROBLEM ON DIFFERENT BUILDINGS WHICH CAUSES FIRE OUTBREAK, **TLG ENGINEERING LIMITED** WE HAVE SOLUTION FOR YOU.
